

STANDARD FORM NO. 64

~~CONFIDENTIAL~~

Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, D/S
ATTN : [REDACTED] 25X1A9a
FROM : Chief, S/TR

DATE: 13 March 1956

SUBJECT: Consolidated Guide Requirements for Austria.

In conformance with your request for subject requirements it should be noted that transportation requirements for Austria fall into the peripheral category and the country is not included as a number one priority target as are the Sino-Soviet Bloc countries. Requirements generally are written so as to elicit broad general reporting and annual totals for transportation performance. S/TR's needs as outlined in its comprehensive requirements for all modes of transport are therefore considered adequate for Austria.
